

ROYAL BUISMAN BUTTER

Excellent quality from Holland

Holland is the dairy country par excellence. Subsequently our nation is known to be one of the world's largest dairy exporters. The production of milk, butter and cheese has been a Dutch tradition for centuries. As goes for Royal VIV Buisman, our butter experience dates back to 1868.

Royal VIV Buisman produces traditional churned butter under the brand name "Royal Buisman" from fresh cream. We can offer you several types of butter that vary in firmness. The taste and colour of all available butter types can be tailored to your specific needs. Our churned butter in 25 kg cartons is ideal for largescale preparation of end products in the bakery industry. It is also very suitable for repackaging into consumer packets (10 to 1000 grams).
