

## 3D BUTTER

A unique addition

In the Netherlands, our butter figurines are probably our best-known luxury products. Around Christmas and Easter, these figurines form centrepieces on the dining table. To contribute to a cheerful, cosy atmosphere and to that sense of luxury during meals with family and friends. Our 3D butter is available in various shapes and flavours and we will be happy to discuss the various options with our clients.

3D butter or 3D herb butter is the ideal addition to your table on feast days such as Christmas and Easter - and will also add that extra festive touch to any other special occasion. A unique shape can be realised, in cooperation with the client, to suit every market and every event. We can even customise figurines to suit your requirements. This brochure shows the designs already available, any of which would make a unique and striking addition to your range of butter and/or herb butter products.
